Original RTI Text: Sir,

It is to submit that the Electronic & Print media in the country are resorting to various means & ways with a sole concept of commercialization of every aspect of the media. It appears that there is no control or check over the media. They are at full liberty to avail the democracy for their own, rather than the larger social interests, it seems. There is no control or bar with regard to the space or time to be provided for advertisements in print & electronic media, respectively. In this context, it is requested to kindly provide the following information for

1 The quantum of advertisements or space that can be spared for advertisements in print media. For example: It is a 12 page daily newspaper. How many pages or how many columns (with size) on each page, which can be filled with advertisements, on which the print media

can charge from the advertiser (be it Govt agency or private or individual). The print media are giving less importance for NEWS and other useful content to the readers and giving every priority with more &

#### RTI Details

more space for advertisements in the print media.

2. The time (hours and minutes) that can be allotted for commercial advertisements for which the electronic media can charge. The relevant guidelines on this may be provided.

As of now, in a half an hour (30 minutes) program, be it a serial, be it any other program, ten minutes is being spared for advertisements, in between such serial or program in electronic media (our hundreds of channels). The advertisements are causing severe inconvenience to the audience. Of course, the advertisements are must for the survival of the media, no doubt. But, there should be certain norms and limits for such advertisement durations. The repeated & repeated advertisements are causing much agony to the viewers, at large. Within a minute or two, same advertisement is repeated shown.

Kindly provide us the details on this much vexed issue.

- 3. The authority which monitors the quality of the advertisements in TV channels and the parameters thereof for such advertisement. Everyone is quite aware that the quality of the advertisements has been drastically fallen down, probably since there is no proper check or control on them.
- 4. What are the guidelines to be adopted by the electronic media (TV channels) in telecasting various items viz: News / stories / Serials / Movies / other recreational activities / sports related / devotional oriented etc, etc. Regards

'The definition of information cannot include within its fold answers to the question "why" which would be same thing as asking the reason for a justification for a particular thing. The public information authorities cannot expect to communicate to the citizen the reason why a certain thing was done or not done in the sense of a justification because the citizen makes a requisition about information. Justifications are matter within the domain of adjudicating authorities and cannot properly be classified as information.'

#### Point No.1

We regret to state that your query seems to be very unspecific & ambiguous. We would suggest that generally Court Orders are documents in public domain and hence would not come under the purview of the RTI Act.

#### Point No.2

Same as given earlier on 09-03-2021.

#### Point No.3

We regret to state that your query is unnecessarily descriptive of your unsubstantiated allegations. However the last leg of this point is repetitive/repetition of point no.2. In this view, the answer would also remain same as point no.2.

## No.11/2/2008-IR Government of India Ministry of Personnel, Public Grievances & Pensions Department of Personnel & Training

North Block, New Delhi Dated: the 10<sup>th</sup> July, 2008

#### OFFICE MEMORANDUM

Subject: Clarification regarding format in which the 'information' should be supplied under the RTI Act, 2005.

\*\*\*\*

It has been observed that some people under the Right to Information Act, 2005 request the Public Information Officers (PIO) to cull out information from some document(s) and give such extracted information to them. In some cases, the applicants expect the PIO to give information in some particular proforma devised by them on the plea that sub-section (9) of Section 7 provides that an information shall ordinarily be provided in the form in which it is sought. It need be noted that the sub-section simply means that if the information is sought in the form of photocopy, it shall be provided in the form of photocopy and if it is sought in the form of a floppy, it shall be provided in that form subject to the conditions given in the Act etc. It does not mean that the PIO shall re-shape the information.

2. According to section 2(f) of the Act 'information' means 'any material in any form'. A citizen, under the Act, has a right to get 'material' from a public authority which is held by or under the control of that public authority. The right includes inspection of work, documents, records; taking notes, extracts or certified copies of documents or records; taking certified samples of material; taking information in the form of diskettes, floppies, tapes video cassettes or in any other electronic mode or through printouts where such information is stored in a computer or in any other device. Careful reading of the definition of 'information' and 'right to information' makes it clear that a citizen has a right to get the material, inspect the material, take notes from the material, take extracts or certified copies of the material, take samples of the material, take the material in the form of diskettes etc. The PIO is required to supply such material to the citizen who seeks it. The Act, however, does not require the Public Information Officer to deduce some conclusion from the 'material' and supply the 'conclusion' so deduced to the applicant. The PIO is required to supply the 'material' in the form as held by the public authority and is not required to do research on behalf of the citizen to deduce anything from the material and then supply it to him.

3. Contents of this OM may be brought to the notice of all concerned.
